Audits and Safety  
Confined Space Entry Level 2  
6 - 8 hours*

This program is designed to provide a basic level of understanding of the hazards of confined spaces and to assist the student in understanding the concepts, procedures and tools that are necessary for safe entry into confined spaces. Theory is covered in the beginning of the course, followed by vessel entry practical. The student will be able to apply this understanding to:

- Identify confined spaces and potential hazards, control measures. As well as understand and apply existing procedures, assist in the development of safe procedures and improve the safety level of existing procedures. Lastly enter and rescue a patient(s) in a confined space simulator.

**(Valid for 3 years) \$180.00 per person plus tax, Books included.**
