"A Life's worth of Training"

October 28, 2011

Worker Fall Protection 8 Hours

Provides both classroom lecture and hands on learning

This course provides the students knowledge of how falls occur, ways to prevent falls and proper use of fall protection equipment. Other points that will be instructed are knowledge of Due Diligence, Emergency and Rescue plans, Fall protection plans, Fall Protection systems, Suspension trauma and Legislation and regulation. At the end of the theory section, there will be a practical portion where students' knowledge will be tested by putting on and properly adjusting a full body harness as well students will experience the fall position. A written exam will also take place.

(Valid for 3 years) \$200.00 per person plus tax, Book included
